# **1. A SAFETY INFORMATION**

Before the installation and use of the appliance, carefully read the supplied instructions. The manufacturer is not responsible for any injuries or damage that are the result of incorrect installation or usage. Always keep the instructions in a safe and accessible location for future reference.

# 1.1 Children and vulnerable people safety

 This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning the use of the appliance in a safe way and understand the hazards involved. Children of less than 8 years of age and persons with very extensive and complex disabilities shall be kept away from the appliance unless continuously supervised.

- Children should be supervised to ensure that they do not play with the appliance.
- Keep all packaging away from children and dispose of it appropriately.
- WARNING: The appliance and its accessible parts become hot during use. Keep children and pets away from the appliance when in use and when cooling down.
- If the appliance has a child safety device, it should be activated.
- Children shall not carry out cleaning and user maintenance of the appliance without supervision.

# 1.2 General Safety

- This appliance is for cooking purposes only.
- This appliance is designed for single household domestic use in an indoor environment.
- This appliance may be used in, offices, hotel guest rooms, bed & breakfast guest rooms, farm guest houses and other similar accommodation where such use does not exceed (average) domestic usage levels.
- Only a qualified person must install this appliance and replace the cable.
- Do not use the appliance before installing it in the built-in structure.
- Disconnect the appliance from the power supply before carrying out any maintenance.
- If the supply cord is damaged, it must be replaced by the manufacturer, its Authorised Service Centre or similarly qualified persons to avoid an electrical hazard.
- WARNING: Ensure that the appliance is switched off before replacing the lamp to avoid the possibility of electric shock.

- WARNING: The appliance and its accessible parts become hot during use. Care should be taken to avoid touching heating elements or the surface of the appliance cavity.
- Always use oven gloves to remove or insert accessories or ovenware.
- Do not activate the microwave function when the appliance is empty. Metal parts inside the cavity can create electric arcing.
- Metallic containers for food and beverages are not allowed during microwave cooking. This requirement is not applicable if the manufacturer specifies size and shape of metallic containers suitable for microwave cooking.
- WARNING: If the door or door seals are damaged, the appliance must not be operated until it has been repaired by a qualified person.
- WARNING: Only a qualified person can carry out any service or repair operation that involves the removal of a cover which gives protection against exposure to microwave energy.
- WARNING: Do not heat liquids and other foods in sealed containers. They are liable to explode.
- Use only utensils that are suitable for use in microwave ovens.
- When heating food in plastic or paper containers, observe the appliance due to the possibility of ignition.
- The appliance is intended for heating food and beverages. Drying of food or clothing and heating of warming pads, slippers, sponges, damp cloth and similar may lead to risk of injury, ignition or fire.
- If smoke is emitted, switch off or unplug the appliance and keep the door closed in order to stifle any flames.
- Microwave heating of beverages can result in delayed eruptive boiling. Care must be taken when handling the container.

- The contents of feeding bottles and baby food jars shall be stirred or shaken and the temperature checked before consumption, in order to avoid burns.
- Eggs in their shell and whole hard-boiled eggs should not be heated in the appliance since they may explode, even after microwave heating has ended.
- To remove the shelf supports first pull the front of the shelf support and then the rear end away from the side walls. Install the shelf supports in the opposite sequence.
- The appliance should be cleaned regularly and any food deposits removed.
- Do not use a steam cleaner to clean the appliance.
- Do not use harsh abrasive cleaners or sharp metal scrapers to clean the glass door since they can scratch the surface, which may result in shattering of the glass.
- Failure to maintain the appliance in a clean condition could lead to deterioration of the surface that could adversely affect the life of the appliance and possibly result in a hazardous situation.

# 2. SAFETY INSTRUCTIONS

# 2.1 Installation

# ⚠ WARNING!

Only a qualified person must install this appliance.

- Remove all the packaging.
- Do not install or use a damaged appliance.
- Follow the installation instructions supplied with the appliance.
- Always take care when moving the appliance as it is heavy. Always use safety gloves and enclosed footwear.
- Do not pull the appliance by the handle.
- Install the appliance in a safe and suitable place that meets installation requirements.
- Keep the minimum distance from other appliances and units.
- Before mounting the appliance, check if the appliance door opens without restraint.

- The appliance is equipped with an electric cooling system. It must be operated with the electric power supply.
- The built-in unit must meet the stability requirements of DIN 68930.

Cabinet minimum height (Cabinet under the worktop minimum height)	444 (460) mm
Cabinet width	560 mm
Cabinet depth	550 (550) mm
Height of the front of the appliance	455 mm
Height of the back of the appliance	440 mm
Width of the front of the ap- pliance	595 mm

Width of the back of the appliance	559 mm
Depth of the appliance	567 mm
Built in depth of the appli- ance	546 mm
Depth with open door	882 mm
Ventilation opening mini- mum size. Opening placed on the bottom rear side	560x20 mm
Mains supply cable length. Cable is placed in the right corner of the back side	1500 mm
Mounting screws	3.5x25 mm

# 2.2 Electrical connection

## ⚠ WARNING!

Risk of fire and electric shock.

- All electrical connections should be made by a qualified electrician.
- The appliance must be earthed.
- Make sure that the parameters on the rating plate are compatible with the electrical ratings of the mains power supply.
- Always use a correctly installed shockproof socket.
- Do not use multi-plug adapters and extension cables.
- Make sure not to cause damage to the mains plug and to the mains cable. Should the mains cable need to be replaced, this must be carried out by our Authorised Service Centre.
- Do not let mains cables touch or come near the appliance door or the niche below the appliance, especially when it operates or the door is hot.
- The shock protection of live and insulated parts must be fastened in such a way that it cannot be removed without tools.
- Connect the mains plug to the mains socket only at the end of the installation. Make sure that there is access to the mains plug after the installation.
- If the mains socket is loose, do not connect the mains plug.
- Do not pull the mains cable to disconnect the appliance. Always pull the mains plug.

- Use only correct isolation devices: line protecting cut-outs, fuses (screw type fuses removed from the holder), earth leakage trips and contactors.
- The electrical installation must have an isolation device which lets you disconnect the appliance from the mains at all poles. The isolation device must have a contact opening width of minimum 3 mm.
- This appliance is supplied with a main plug and a main cable.

# 2.3 Use

# <u>∕</u>Î∖ WARNING!

Risk of injury, burns and electric shock or explosion.

- Do not change the specification of this appliance.
- Make sure that the ventilation openings are not blocked.
- Do not let the appliance stay unattended during operation.
- Deactivate the appliance after each use.
- Be careful when you open the appliance door while the appliance is in operation. Hot air can release.
- Do not operate the appliance with wet hands or when it has contact with water.
- Do not apply pressure on the open door.
- Do not use the appliance as a work surface or as a storage surface.
- Open the appliance door carefully. The use of ingredients with alcohol can cause a mixture of alcohol and air.
- Do not let sparks or open flames to come in contact with the appliance when you open the door.
- Do not put flammable products or items that are wet with flammable products in, near or on the appliance.
- Do not use microwave function to preheat the appliance.

# 

Risk of damage to the appliance.

- To prevent damage or discoloration to the enamel:
  - do not put aluminium foil directly on the bottom of cavity of the appliance.

- do not put water directly into the hot appliance.
- do not keep moist dishes and food in the appliance after you finish the cooking.
- be careful when you remove or install the accessories.
- Discoloration of the enamel or stainless steel has no effect on the performance of the appliance.
- Use a deep pan for moist cakes. Fruit juices cause stains that can be permanent.
- Always cook with the appliance door closed.
- If the appliance is installed behind a furniture panel (e.g. a door) make sure the door is never closed when the appliance operates. Heat and moisture can build up behind a closed furniture panel and cause subsequent damage to the appliance, the housing unit or the floor. Do not close the furniture panel until the appliance has cooled down completely after use.

# 2.4 Care and cleaning

## ⚠ WARNING!

Risk of injury, fire, or damage to the appliance.

- Before maintenance, deactivate the appliance and disconnect the mains plug from the mains socket.
- Make sure the appliance is cold. There is the risk that the glass panels can break.
- Replace immediately the door glass panels when they are damaged. Contact the Authorised Service Centre.
- Be careful when you remove the door from the appliance. The door is heavy!
- Make sure the cavity and the door are wiped dry after each use. Steam produced during the operation of the appliance condensates on cavity walls and can cause corrosion.
- Clean regularly the appliance to prevent the deterioration of the surface material.
- Fat and food remaining in the appliance can cause fire and electric arcing when the microwave function operates.
- Clean the appliance with a moist soft cloth. Use only neutral detergents. Do not

use abrasive products, abrasive cleaning pads, solvents or metal objects.

• If you use an oven spray, follow the safety instructions on its packaging.

## 2.5 Glassware use

Handling your glassware without an appropriate degree of care could result in breakage, chipping, cracking or severe scratching:

- Do not spill cold water or other liquids on the glassware because a sudden temperature drop may cause immediate breakage of the glass. Broken glass pieces may be extremely sharp and difficult to locate.
- Do not place hot glassware on a wet or cool surface, directly on countertop or metal surface, or in sink; or handle hot glassware with wet cloth.
- Do not use or repair any glassware that is chipped, cracked or severely scratched.
- Do not drop or hit glassware against a hard object or strike utensils against it.
- Do not heat empty or nearly empty glassware in microwave, or overheat oil or butter in microwave (use minimum amount of cooking time).

Allow hot glassware to cool on a cooling rack, a potholder or a dry cloth. Make sure that the glassware is cool enough before washing, refrigerating or freezing.

Avoid handling hot glassware (including ware with silicone gripping surfaces) without dry potholders.

Avoid microwave misuse (i.e. running the oven without any load or small load).

# 2.6 Internal lighting

# 🕂 WARNING!

Risk of electric shock.

 Concerning the lamp(s) inside this product and spare part lamps sold separately: These lamps are intended to withstand extreme physical conditions in household appliances, such as temperature, vibration, humidity, or are intended to signal information about the operational status of the appliance. They are not intended to be used in other applications and are not suitable for household room illumination.

- This product contains a light source of energy efficiency class G.
- Use only lamps with the same specifications.

#### 2.7 Service

- To repair the appliance contact the Authorised Service Centre.
- Use original spare parts only.

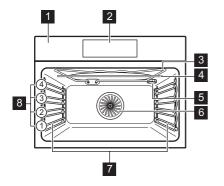

#### 2.8 Disposal

#### **⚠ WARNING!**

Risk of injury or suffocation.

# **3. PRODUCT DESCRIPTION**

## 3.2 Accessories

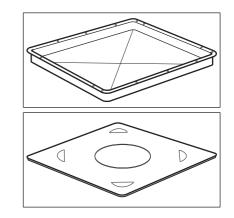

#### Wire shelf

For cookware, cake tins, roasts.

- Contact your municipal authority for information on how to dispose of the appliance.
- Disconnect the appliance from the mains supply.
- Cut off the mains electrical cable close to the appliance and dispose of it.
- Remove the door catch to prevent children or pets from becoming trapped in the appliance.

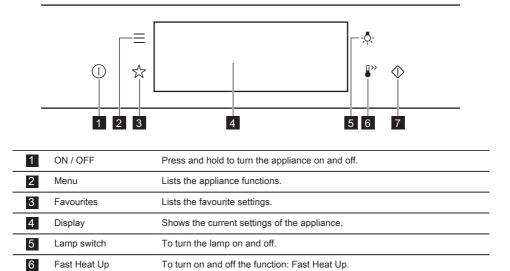

Baking tray For cakes and biscuits.

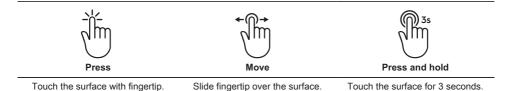

**Microwave bottom glass plate** To prepare food in microwave mode.

# 4. CONTROL PANEL

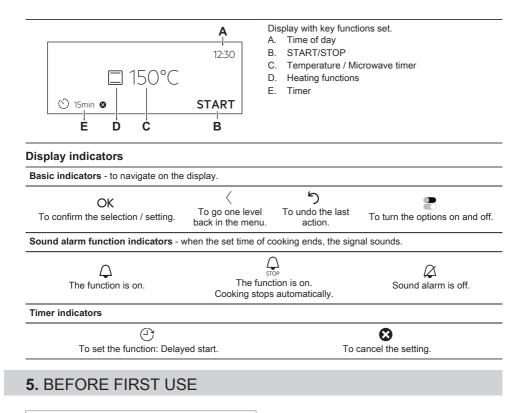

# 4.1 Control panel overview

7 Microwave quick start To turn on microwave function (1000 W and 30 seconds).

## 4.2 Display

# 5.1 Initial Cleaning

	A A A A A A A A A A A A A A A A A A A	
Step 1	Step 2	Step 3
Remove all accessories and remov- able shelf supports from the appli- ance.	Clean the appliance and the accessories only with a microfibre cloth, warm water and a mild detergent.	Place the accessories and the re- movable shelf supports in the appli- ance.

#### 5.2 First connection

The display shows welcome message after the first connection.

You have to set: Language, Display brightness, Key tones, Buzzer volume, Time of day.

# 6. DAILY USE

## ⚠ WARNING!

Refer to Safety chapters.

## 6.1 How to set: Heating functions

Step 1	Turn on the oven. The display shows the default heating function.	
Step 2	Press the symbol of the heating function $\widehat{\mathbb{C}}$ to enter the submenu.	
Step 3	Select the heating function and press: $OK$ . The display shows: temperature.	
Step 4	Set: temperature. Press: OK.	
Step 5	Press: START .	
STOP - press to turn off the heating function.		
Step 6	Turn off the oven.	

# 6.2 How to set: Microwave functions

Step 1	Remove all accessories and turn on the appliance. Insert microwave bottom glass plate.	
Step 2	Press the symbol of the heating function to enter the submenu.	
Step 3	Select the microwave heating function and press: $OK$ . The display shows: microwave power.	
Step 4	Set: microwave power. Press: OK.	

Step 5	Press: START	
STOP - I	press to turn off the function.	
Step 6	Turn off the appliance.	

The maximum time of microwave functions depends on microwave power you set:

MICROWAVE POWER W	MAXIMUM TIME min
100 - 600	59:55
> 600	7

(i) If you open the door, the function stops. To start it again, press START.

6.3 How to use: Microwave quick start

Step 1 Press and hold: The microwave runs for 30 s.

Step 2	To extend the cooking time:
	Press on the run- ning time value to go to the time settings. Set the cooking time.
	wave can be switched on at any time with: e quick start.

# 6.4 How to set: Assisted Cooking

Every dish in this submenu has a recommended function and temperature. You can adjust the time and the temperature.

For some of the dishes you can also cook with:

Weight Automatic

Step 1	Turn on the oven.
Step 2	Press:
Step 3	Press: 🗏 . Enter: Assisted Cooking.
Step 4	Choose a dish or a food type.
Step 5	Press: START

# 6.5 Heating functions

# STANDARD

Heating function	Application
Grill	To grill thin pieces of food and to toast bread.
Turbo Grilling	To roast large meat joints or poultry with bones on one shelf position. To make gratins and to brown.
True Fan Cooking	To bake on up to two shelf positions at the same time and to dry food. Set the temper- ature 20 - 40 °C lower than for Conventional Cooking.
Frozen Foods	To make convenience food (e.g., french fries, potato wedges or spring rolls) crispy.
Conventional Cooking	To bake and roast food on one shelf position.
Pizza Function	To bake pizza. To make intensive browning and a crispy bottom.
Bottom Heat	To bake cakes with crispy bottom and to preserve food.

# SPECIALS

Heating function	Application
Preserving	To preserve vegetables (e.g., pickles).
<b>///</b> Dehydrating	To dry sliced fruit, vegetables and mushrooms.
کی۔ Plate Warming	To preheat plates for serving.

Heating function	Application		
<b>↑</b> Dough Proving	To speed up the rising of the yeast dough. It prevents dough surface from drying and keeps the dough elastic.

When 10% of cooking time is left and the food seems not to be ready, you can extend cooking time. You can also change the heating function.

Press +1min to extend the cooking time.

How to change timer settings	
Step 1	Press: O.
Step 2	Set the timer value.
Step 3	Press: OK.
You can change the set time during cooking at any time	

You can change the set time during cooking at any time.

# 8. USING THE ACCESSORIES

#### WARNING!

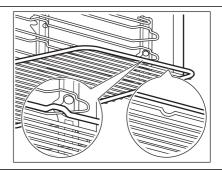

Refer to Safety chapters.

#### 8.1 Inserting accessories

Use only suitable cookware and material. Refer to "Hints and tips" chapter, Microwave suitable cookware and materials. A small indentation at the top increases safety. The indentations are also anti-tip devices. The high rim around the shelf prevents cookware from slipping of the shelf.

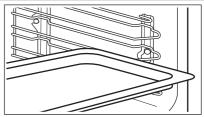

#### Wire shelf:

Push the shelf between the guide bars of the shelf support and make sure that the feet point down.

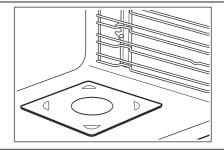

#### Baking tray:

Push the tray between the guide bars of the shelf support.

#### Microwave bottom glass plate:

Use the microwave bottom glass plate only with microwave function. It is not suitable for combined microwave function (e.g. microwave grilling). Put the accessory on the bottom of the cavity. You can put the food directly on the microwave bottom glass plate.

# 9. ADDITIONAL FUNCTIONS

#### 9.1 How to save: Favourites

You can save your favourite settings, such as the heating function, the cooking time, the temperature or the cleaning function. You can save 3 favourite settings.

Step 1	Turn on the appliance.
Step 2	Select the preferred setting.
Step 3	Press: Select: Favourites.
Step 4	Select: Save current settings.
Step 5	Press + to add the setting to the list of: Favourites. Press OK.

press to reset the setting.
press to cancel the setting.

# 9.2 Function lock

This function prevents an accidental change of the heating function.

Step 1	Turn on the appliance.
Step 2	Set a heating function.
Step 3	☆, 閳 - press at the same time to turn on the function.

To turn off the function repeat step 3.

# 9.3 Automatic switch-off

For safety reasons the appliance turns off after some time, if a heating function works and you do not change any settings.

(°C)	(h)
30 - 115	12.5
120 - 195	8.5

The Automatic switch-off does not work with the functions: Light, End time, Slow Cooking.

# 9.4 Cooling fan

When the appliance operates, the cooling fan turns on automatically to keep the surfaces of the appliance cool. If you turn off the appliance, the cooling fan can continue to operate until the appliance cools down.

# **10.** HINTS AND TIPS

# 10.1 Cooking recommendations

# **i**

The temperature and cooking times in the tables are guidelines only. They depend on the recipes and the quality and quantity of the ingredients used.

Your appliance may bake or roast differently to the appliance you had before. The hints below show recommended settings for temperature, cooking time and shelf position for specific types of the food.

If you cannot find the settings for a special recipe, look for the similar one.

For more cooking recommendations refer to cooking tables on our website. To find the Cooking Hints, check the PNC number on the rating plate on the front frame of the appliance cavity.

10.2 Microwave recommendations	Place the food on a plate on the bottom of the cavity.		
(i) Let's cook! Place the food on the microwave bottom glass plate on the bottom of the cavity.	Turn or stir the food halfway through the defrosting and cooking time. Stir liquid dishes from time to time.		

# 18 ENGLISH

Stir the food before serving.

Cover the food for cooking and reheating.

Put the spoon to the bottle or glass when heating drinks to ensure better heat distribution.

Put the food into the appliance without packaging. The packaged ready meals can be put into the appliance only when the packaging is microwave safe (check information on the packaging).

#### Microwave cooking

Cook food covered. If you want to keep a crust cook food without a cover.

Do not overcook the dishes by setting the power and time too high. The food can dry out, burn or cause fire.

Do not use the appliance to cook eggs or snails in their shells, because they can burst.

Pierce the yolk of fried egg before reheating it.

Pierce food with skin or peel several times before cooking.

Cut vegetables into similar-sized pieces.

After you turn off the appliance, take the food out and let it stand for a few minutes to allow the heat distribute evenly.

# Microwave defrosting

Put the frozen, unwrapped food on a small upturned plate with a container below it, or on a defrosting rack or plastic sieve so that the defrosting liquid can leak out.

Remove defrosted pieces subsequently.

To cook fruit and vegetables without defrosting them first, you can use a higher microwave power.

## 10.3 Microwave suitable cookware and materials

For the microwave use only suitable cookware and materials. Use below table as a reference.

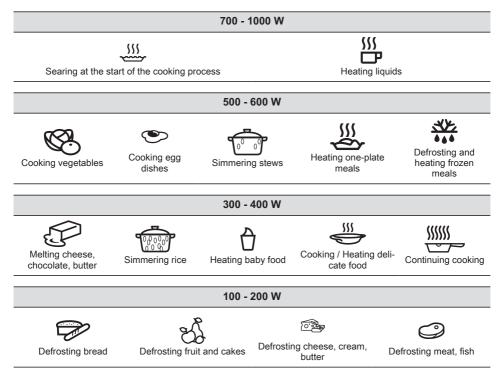

Check the cookware / material specification before use.

Cookware / Material	***		
Ovenproof glass and porcelain with no metal components, e.g. heat-proof glass	$\checkmark$	$\checkmark$	$\checkmark$
Non-ovenproof glass and porcelain without any silver, gold, platinum or other metal decorations	$\checkmark$	X	x
Glass and glass ceramic made of ovenproof / frost-proof material	$\checkmark$	$\checkmark$	$\checkmark$
Ovenproof ceramic and earthenware without any quartz or metal compo- nents and glazes which contain metal	$\checkmark$	$\checkmark$	$\checkmark$
Ceramic, porcelain and earthenware with unglazed bottom or with small holes, e.g. on handles	Х	X	x
Heat-resistant plastic up to 200 °C	$\checkmark$	$\checkmark$	Х
Cardboard, paper	$\checkmark$	х	x
Clingfilm	$\checkmark$	х	Х

Cookware / Material	***		
Microwave clingfilm	$\checkmark$	$\checkmark$	x
Roasting dishes made of metal, e.g. enamel, cast iron	х	Х	x
Baking tins, black lacquer or silicon- coated	х	х	х
Baking tray	х	х	X
Wire shelf	Х	x	$\checkmark$
Microwave glass bottom plate	$\checkmark$	$\checkmark$	x
Cookware for microwave use, e.g. crisp pan	Х	$\checkmark$	x

# 10.4 Recommended power settings for different kinds of food

The data in the table is for guidance only.

# 10.5 Cooking tables for test institutes

Information for test institutes

Tests according to IEC 60705.

#### Microwave function

Use wire shelf unless otherwise specified.

*	POWER	Ō	]±		<b>i</b>
Sponge cake	600	0.475	Bottom	8 - 9	Turn container around by 1/4, halfway through the cooking time.
Meatloaf	400	0.9	1	25 - 27	Turn container around by 1/4, halfway through the cooking time.
Egg custard	500	1	2	30 - 33	-
Meat defrosting	100	0.5	1	15	Turn the meat upside down halfway through the cooking time.

Microwave Combi function Use the wire shelf.

*		POWER		<u>+</u>		<b>i</b>
Cake, 0.7 kg	Conventional Cooking + MW	100	200	2	23 - 27	Turn container around by 1/4, halfway through the cooking time.

# **11.** CARE AND CLEANING

## **⚠ WARNING**!

Refer to Safety chapters.

## 11.1 Notes on cleaning

**Cleaning Agents** 

Clean the front of the appliance only with a microfibre cloth with warm water and a mild detergent.

Use a cleaning solution to clean metal surfaces.

Clean stains with a mild detergent.

Clean the cavity after each use. Fat accumulation or other residue may cause fire. Clean the appliance ceiling carefully from residue and fat.

Do not store the food in the appliance for longer than 20 minutes. Dry the cavity only with a microfibre cloth after each use.

Clean all accessories after each use and let them dry. Use only a microfibre cloth with warm water and a mild detergent. Do not clean the accessories in a dishwasher.

Do not clean the non-stick accessories using abrasive cleaner or sharp-edged objects.

#### Accessories

## 11.2 How to remove: Shelf supports

Remove the shelf supports to clean the oven.

Step 1	Turn off the oven and wait until it is cold.	
Step 2	Carefully pull the shelf supports up and out of the front catch.	
Step 3	Pull the front end of the shelf support away from the side wall.	
Step 4	Pull the supports out of the rear catch.	

Install the shelf supports in the opposite sequence.

#### 11.3 How to replace: Lamp

A WARNING!

Risk of electric shock. The lamp can be hot. Always hold the halogen lamp with a cloth to prevent grease residue from burning on the lamp.

	Before you replace the lamp:	
Step 1	Step 2	Step 3

Before you replace the lamp:			
Turn off the oven. Wait until the oven is cold.	Disconnect the oven from the mains.	Put a cloth on the bottom of the cav- ity.	

# Top lamp

Step 1	Turn the glass cover to remove it.
Step 2	Clean the glass cover.
Step 3	Replace the lamp with a suitable 300 °C heat-resistant lamp.
Step 4	Install the glass cover.

# **12. TROUBLESHOOTING**

# <u>∕</u>!∖ WARNING!

Refer to Safety chapters.

# 12.1 What to do if...

The appliance does not turn on or does not heat up			
Possible cause	Remedy		
The appliance is not connected to an electrical supply or it is connected incorrectly.	Check if the appliance is correctly connected to the electrical supply.		
The clock is not set.	Set the clock, for details refer to Clock functions chap- ter, How to set: Clock functions.		
The door is not closed correctly.	Fully close the door.		
The fuse is blown.	Make sure the fuse is the cause of the problem. If the problem recurs, contact a qualified electrician.		
The appliance Child Lock is on.	Refer to "Menu" chapter, Submenu for: Options.		
U Components			
Description	Remedy		
The lamp is burnt out.	Replace the lamp, for details refer to "Care and Clean- ing" chapter, How to replace: Lamp.		

# 12.2 How to manage: Error codes

When the software error occurs, the display shows error message.

In this section, you will find the list of the problems that you can handle on your own.

Code and description	Remedy
F240, F439 - the touch fields on the display do not work properly.	Clean the surface of the display. Make sure there is no dirt on the touch fields.
F908 - the appliance system cannot connect with the control panel.	Turn the appliance off and on.

When one of these error messages continues to appear on the display, it means a faulty subsystem may have been disabled. In such a case contact your dealer or an Authorized Service Centre. If one of these errors occurs, the rest of the appliance functions will continue to work as usually.

Code and description	Remedy
F131 - the temperature of magnetron sensor is too high.	Turn the appliance off and wait until it cools down. Turn the appliance on again.

## 12.3 Service data

If you cannot find a solution to the problem yourself, contact your dealer or an Authorised Service Centre.

The necessary data for the service centre is on the rating plate. The rating plate is on the front frame of the appliance cavity. Do not remove the rating plate from the appliance cavity.

We recommend that you write the data here:				
Model (MOD.)				
Product number (PNC)				
Serial number (S.N.)				

# **13. ENERGY EFFICIENCY**

# 13.1 Energy saving

Make sure that the appliance door is closed when the appliance operates. Do not open the appliance door too often during cooking. Keep the door gasket clean and make sure it is well fixed in its position.

Use metal cookware to improve energy saving (only when you use a non-microwave function).

When possible, do not preheat the appliance before cooking.

Keep breaks between baking as short as possible when you prepare a few dishes at one time.

#### Cooking with fan

When possible, use the cooking functions with fan to save energy.

#### **Residual heat**

If a programme with Duration is activated and the cooking time is longer than 30 min, the heating elements automatically turn off earlier in some appliance functions.

The fan and lamp continue to operate. When you turn off the appliance, the display shows the residual heat. You can use that heat to keep the food warm.

When the cooking duration is longer than 30 min, reduce the appliance temperature to minimum 3 - 10 min before the end of cooking. The residual heat inside the appliance will continue to cook.

Use the residual heat to warm up other dishes.

#### Keep food warm

Choose the lowest possible temperature setting to use residual heat and keep a meal warm. The residual heat indicator or temperature appears on the display.

#### Cooking with the lamp off

Turn off the lamp during cooking. Turn it on only when you need it.

# **14. MENU STRUCTURE**

#### 14.1 Menu

Menu item Application		Application	
Assisted Cooking		Lists automatic programmes.	
Favourites Lists the favourite settings.		Lists the favourite settings.	
Options To set the appliance configuration.		To set the appliance configuration.	
Settings Setup		To set the appliance configuration.	
Service		Shows the software version and configuration.	

## 14.2 Submenu for: Options

Submenu	Application	
Light	Turns the lamp on and off.	
Child Lock	Prevents accidental activation of the appliance. When the option is on, the text Child Lock appears in the display when you turn on the appliance.
