Roomba®
Vacuum Cleaning Robot

Roomba® 776p

Keeps your floors so clean no one will believe you have a pet

Thorough Cleaning

Patented 3-Stage
Cleaning Process

Easy to Use

Clean your floors with the touch
of a button or schedule to clean
while you're not home

Designed with Pet Owners in Mind

Effectively cleans up after your pet
while avoiding water and food bowls

ROOMBA 776p FEATURES

COVERAGE

Vacuums on its own using iAdapt® Responsive
Navigation Technology.

Works on carpet, hardwood, tile and linoleum.

Dirt Detect™ Series 2 optically and acoustically
detects dirtier areas and cleans them more intensely.

HEPA filters trap pet dander, dust particles and
other allergens.

CONVENIENCE

Automatically recharges itself between cleanings.

Cleans on a schedule that's convenient for you.

Perfect for homes with pets.

Provides pet owners with a focused, thorough clean.

Roomba® 776p features a patented 3-stage cleaning process with counter-rotating brushes and a powerful vacuum to remove dirt, dust, pet hair and other debris from your floors while dual HEPA filters keep your home's air free from fine particles, pet dander and other allergens.

With Roomba 776p, it's so easy to clean up after your pet that you'll do it more often. Just press the CLEAN button and iRobot's iAdapt® Responsive Navigation Technology enables Roomba to find its way around the room, ensuring every area is covered multiple times for a complete clean. Roomba 776p is also equipped with Dirt Detect™ Series 2 which uses optical and acoustic sensors to focus on areas with a higher concentration of debris to ensure no pet hair or debris is left behind.

Roomba 776p also comes with a Virtual Wall® Halo™ which sets up a protective zone to guide Roomba around your pet's food and water bowls, leaving their contents intact. As with all Roomba models, Roomba 776p has a spinning side brush to clean along wall edges, is compact enough to navigate under and around furniture, avoids stairs and other drop-offs and will automatically return to its Home Base™ to recharge between cleaning cycles.

INDUSTRY LEADING PERFORMANCE

- Effectively captures large quantities of dirt, dust, pet hair, cat litter, pet dander, and other debris from all floor types
- Vacuums every section of floor multiple times
- Sophisticated power management software for hundreds of cleaning cycles under proper use
- Senses areas with higher concentrations of debris for a deeper clean where it's needed most

EASY TO USE

- Cleans under and around furniture, beds, into corners, and along wall edges
- Avoids stairs, obstacles and loose wires
- Works in cluttered rooms without damaging furniture
- Pre-schedule Roomba to clean when it's most convenient for you, up to seven times a week

DESIGNED WITH PET OWNERS IN MIND

- Effectively finds pet hair, dander, cat litter and other debris in tight spots, even under and around furniture
- Virtual Wall Halo guides Roomba around your pet's food and water bowls
- Spot Clean Mode performs a quick vacuum of debris confined to a small area, such as dirty footprints or an overturned plant
- Dual HEPA filters capture pet dander, dust, and allergens as fine as 0.3 microns
